

Criterion 3: Student Outcomes

❖ Student Outcomes

- We are still using a-k and are waiting for the final version of 1-7

❖ Matrices

- The physics matrix was changed because some concentrations removed certain elective courses
- There has been disparity in the amount of work for certain professors in the past. We will wait until 1-7 is official to address this issue

❖ Status of Criterion 3

- Electrical Engineering has changed there numbering system and this has not yet been reflected in the draft SSR
- There may be additional updates for the other concentrations as they move from draft to final SSR status.
